

## Material Safety Data Sheet

### Chemical Product and Company Identification

Slider-Slicker ; Dry Track Lubricant; Manufactured by Cross Devices

Responsible person for MSDS : David Cross

Cross Devices 3848 Shope Rd. Gainesville, Ga 30506 Tel: 631-298-4517

Description, Use : Modified Paraffin grease stick in tubular paper wrapper for use as lubricant.

Principal ingredients : Paraffin wax and hydrocarbon waxes, Mineral Oils, Teflon

Hazard Symbols: None listed

Risk Phrases: None listed

### Hazards Identification; Potential Health Effects

Skin: Low hazard for usual handling.

Ingestion: May cause irritation of the digestive tract.

### First Aid Measures

Skin: Get medical aid if irritation develops or persists. Flush skin with plenty of soap and water.

Ingestion: If victim is conscious and alert, give 2-4 cupfuls of milk or water. Get medical aid.

### Fire Fighting Measures

As in any fire, wear a self-contained breathing apparatus in pressure-demand, MSHA/NIOSH (approved or equivalent), and full protective gear. During a fire, irritating and highly toxic gases may be generated by thermal decomposition or combustion.

Extinguishing Media:

Use water spray, dry chemical, carbon dioxide, or chemical foam.

### Accidental Release Measures

Spills/Leaks: Sweep up, then place into a suitable container for disposal.

### Handling and Storage

Wash thoroughly after handling. Wash thoroughly after handling.

### Storage:

Keep away from heat and flame. Store in a cool, dry place.

Shelf life : indefinite

### Exposure Controls, Personal Protection

Exposure Limits: CAS# 8002-74-2: fume when burned or molten

### Physical and Chemical Properties

Physical State: Solid

Color: Pink to Red

Odor: None at room temperature.

Viscosity: Solid at room temperature.

Boiling Point: > 370 deg C (> 698.00 F)

Freezing/Melting Point: 45-65C

Flash Point: 200 deg C ( 392.00 deg F)

Explosion Limits: Lower: None Reported

Explosion Limits: Upper: None Reported

Solubility in water: Insoluble in water

Molecular Formula: hydrocarbon

#### Stability and Reactivity

Chemical Stability: Stable.

#### Conditions to Avoid

Hazardous Decomposition Products Carbon monoxide, carbon dioxide.

Hazardous Polymerization Will not occur.

#### Carcinogenicity:

Paraffin waxes and hydrocarbon waxes -Not listed as a carcinogen by ACGIH, IARC, NTP, or CA Prop 65.

Teflon : Listed as carcinogenic in California ( less than 1% by weight )

#### Disposal Considerations

Products considered hazardous for supply are classified as Special Waste and the disposal of such chemicals is covered by regulations which may vary according to location.

#### Transport Information IATA

Shipping Name: Not regulated as a hazardous material

#### Other Information

MSDS Creation Date: 01/01/14
